November 26, 2024

### **Village of Scarsdale to Begin Weekly Recycling Collection – January 01**

The Village of Scarsdale is proud to announce a significant enhancement to its recycling collection program. Beginning January 01, 2025, The Village will implement **weekly collection of paper and commingled recycling**, replacing the current every-other-week schedule. This change reflects Scarsdale's commitment to sustainability, operational efficiency and meeting the needs of its residents.

This improvement follows the Department of Public Works' (DPW) operational review of the Sanitation Division, completed in December 2023. The review examined trends over the past 20 years, highlighting a notable reduction in solid waste, paper and commingled recycling collected by the Department. The findings concluded that a shift to weekly recycling services would align operations with current demand and would enhance service delivery. A copy of this study can be found [here](#).

#### What Residents Need to Know:

- **New Recycling Schedule:** Weekly Collection of both paper and comingled recycling begins January 01, 2025.
- **Sanitation Calendars:** The DPW has prepared four updated sanitation calendars to reflect changes to recycling routes. These calendars will be mailed to residents before the end of the year. Nearly all residents will continue to have the same garbage collection schedule as they do now.
- **Route Adjustments:** To optimize recycling operations the Monday/Thursday and Tuesday/Friday trash collection routes have been divided into two recycling routes.
- **Collection routes and schedules** are currently being finalized and will be shared with the public ahead of the January 1, 2025, kickoff date
